EXPLANATORY NOTES

Introduction

This publication is one of a series presenting *final* person and dwelling counts from the 1981 Census of Population and Housing for various geographic levels. Persons were counted where they spent the night of 30 June 1981.

Content

2. The tables in this publication contain counts of persons by sex and of occupied private and non-private dwellings and unoccupied private dwellings in Local Government Areas, Urban Centres and Bounded Rural Localities.

3. All tables contain counts from the 1976 and 1981 Censuses, where geographic comparability allows.

4. For the purposes of the 1981 Census, Local Government boundaries in New South Wales were those which existed at 1 January 1981, and for other States and Territories the boundaries existing at 30 June 1980.

5. For Local Government Areas (LGA's), 1976 Census data has been presented according to boundaries adopted for the 1981 Census. Because some intercensal boundary changes involve areas smaller than Collection Districts, precise figures cannot always be calculated. Consequently, where areas are nearly but not directly comparable, estimates of 1976 population on 1981 boundaries are given. In cases where estimates are not possible, the 1976 population on 1981 boundaries is recorded as not available (n.a.). See Appendix A for major intercensal area changes.

6. Note that for Urban Centres and Bounded Rural Localities the 1976 Census data are shown on boundaries delineating the areas defined in 1976.

Maps

7. The maps contained in this publication show the boundaries, names and codes of Statistical Divisions, Subdivisions and Districts and LGA's and identify major urban areas.

8. Additional copies of these maps can be obtained from the ABS for 50 cents a sheet.

Scope and coverage

9. The 1981 Census of Population and Housing aimed at counting every person who spent Census night, 30 June 1981, in Australia including persons on vessels in or between Australian ports, on board long-distance trains, buses or aircraft. All dwellings were counted, whether occupied or unoccupied. People were counted where they were on Census night, which may not be where they usually live. Visitors to Australia were enumerated regardless of how long ago they had arrived or how long they planned to stay. Australian residents out of the country on Census night were excluded from the count.

10. Diplomatic personnel and their families are, by definition, out of the scope of the Census, as are diplomatic residences.

11. While every effort is made to minimise under-counting in the Census, some inevitably remains for various reasons (e.g. inadvertent omission of very young children, treatment of some dwellings as unoccupied when, in fact, they were occupied, and failure to find all dwellings). Refusal by householders to complete the Census Schedule is not a significant cause of under-counting.

Definitions

12. *Dwellings*—For Census purposes, dwellings are classified into two groups: occupied and unoccupied. Occupied dwellings can be either private or non-private while unoccupied are private only.

- (a) An occupied private dwelling is defined as the premises occupied by a household on Census night (for definition of *Household* see below). A *private dwelling* is normally a house, flat, part of a house or even a room but can also be a tent, houseboat, or caravan if standing on its own block of land and not occupied by members of the same household resident in an adjacent dwelling. It is important to remember that the Census definition of a private dwelling means that the total number of dwellings may be more than the total number of known structures in any given area (see *Household* below). *Non-private dwellings* are hotels, motels, boarding houses, gaols, religious and charitable institutions, defence establishments, other communal dwellings and caravan parks. Usually occupants of such dwellings use communal facilities (such as hotel dining rooms or mess halls) attached to the particular establishment. A caravan in a caravan park (whether permanently or temporarily located) is treated as part of a non-private dwelling as are self-contained units provided by commercial enterprises such as hotels, motels and guest-houses.
- (b) An unoccupied dwelling is a structure built specifically for living purposes and capable of being lived in but unoccupied at the time of the Census. Vacant houses, holiday houses, huts, cabins (other than seasonal workers' quarters) and houseboats are counted as unoccupied dwellings but vacant tents, garages and caravans (if not normally occupied) are not. Also included are newly completed dwellings not yet occupied; dwellings which are vacant because they are due for demolition or repair; dwellings to let; and dwellings where all members of the household were absent on Census night.

13. *Household*—For Census purposes, a household is either a person living alone or a group of people living together as a single domestic unit with common eating arrangements. It is possible for more than one household to live in one house or structure. For example, a lodger who lives with a family and provides all his own food is not a member of the family's household but constitutes a separate household and therefore completes a separate householder's schedule. Because an occupied private dwelling is defined as the premises occupied by a household on Census night (see above), the number of households and the number of occupied private dwellings is identical and the number of occupied dwellings, as defined for Census purposes, may be greater than the known number of structures.

14. *Migratory*—Persons enumerated on board vessels in and between Australian ports, or on board long-distance trains, buses or aircraft are classified as *Migratory*. Such persons are not included in the population of specific LGA's, but are shown as a balancing item in the population of a State or Territory.

15. *Campers out*—Persons who spent Census night in the open in cars, caravans or trucks pulled up at the side of the road for that night only, or persons in other temporary camps or accommodation erected for that night only are classified as campers out. Such persons are included in the population of the LGA in which they were enumerated.

Geographic definitions

16. Information from the Census is available at various levels of geographic detail, only some of which are shown in this publication. Information at other levels may be made available on request. Some of the principal levels are described below.

17. *Collection District (CD)*—The Collection District (CD) is the smallest geographical area used in the collection and dissemination of Census data. A CD is an area containing approximately 300 dwellings in urban areas and fewer in rural areas. CD's can be aggregated to form other geographic levels, such as LGA's and Statistical Divisions.

18. *Local Government Area (LGA)*—This is a basic unit used in the presentation of Census data. LGA's correspond in all but a few instances to legal Local Government Authority Areas, e.g. City, Municipality, Shire, District Council. Because the City of Brisbane, the Northern Territory and the Australian Capital Territory do not have legal LGA's equivalent in size to other States and capital cities, they have been divided, for statistical purposes, into Census LGA's.

19. *Urban Centres*—At each Census of Population and Housing a boundary is defined for each population cluster of 1,000 or more people and for known holiday resorts of less population if they contain 250 or more dwellings of which at least 100 are occupied on Census night. These clusters are known as Urban Centres and the population and dwellings enumerated in them are classified as urban for statistical purposes. The rules used to determine Urban Centres and define their boundaries are complex. They can be made available on request.

20. *Localities*—See 'Bounded Rural Locality' under the heading 'Section of State'.

21. *Section of State*—This identifies aggregations of CD's on a basis which ignores legal boundaries. Sections of State are defined for statistical purposes only.

Five Sections of State are used:

- (a) Major Urban—Urban Centres with a population of 100,000 and over;
- (b) Other Urban—Urban Centres with a population of 1,000 to 99,999;
- (c) Bounded Rural Locality—population clusters of 200 to 999 persons;
- (d) Rural Balance—the remainder of the State;
- (e) Migratory—see explanation under 'Definitions'.

22. *Statistical Division*—Statistical Divisions are designed to be relatively homogeneous regions characterised by identifiable social and economic links between the inhabitants and between the economic units within the region, under the unifying influence of one or more major towns or cities. Capital City Statistical Divisions are predominantly urban in character and the boundaries are delineated to contain the anticipated urban development of the capital cities (and associated Urban Centres) for a period of at least twenty years.

23. *Statistical Subdivision*—A Statistical Subdivision is defined in most States on the same basis as a Statistical Division but as a portion of the latter.

24. *Statistical District*—Generally, a Statistical District is a Statistical Subdivision that meets additional criteria. Most Statistical Districts contain an Urban Centre with a population of 25,000 or more and their boundaries, like those of Capital City Statistical Divisions, are delineated to contain the anticipated urban development of the centre for a period of at least twenty years. These fixed boundaries delineate areas which for general statistical purposes are free from the problems imposed by the moving boundaries of the majority of Urban Centres.

25. In selected cases, especially in Queensland, Statistical District boundaries have been delineated around Urban Centres with a population of fewer than 25,000, where there was a demand for intercensal population estimates for the area and where existing LGA boundaries were obviously inadequate for this purpose.

26. There are three cases where Statistical Districts are not equivalent to Statistical Subdivisions. They are the Statistical Districts of Gold Coast and Albury-Wodonga which cross State boundaries and each of which consist of two Statistical Subdivisions, and the Canberra Statistical District which consists of the Canberra Statistical Division and the LGA of Queanbeyan in New South Wales.

Terms and abbreviations

Geographic code

27. The six digit geographic code used in Tables 1, 4, 5 and 6 in this publication indicates Statistical Division (first two digits), Statistical Subdivision or Statistical District (third digit) and Census LGA code (last three digits).

28. The Census LGA codes have been allocated in alphabetical order within each State or Territory.

29. The combination of codes shown in this series of publications thus provides a cross-reference between the various tables and maps, as well as identifying those parts of legal LGA's divided by Statistical Division, Statistical Subdivision or Statistical District boundaries (see Appendix A).

Abbreviations

- B — Borough
- C — City
- DC — District Council
- M — Municipality
- S — Shire
- T — Town

APPENDIX A

MAJOR CHANGES TO STATISTICAL DIVISIONS, STATISTICAL SUBDIVISIONS, STATISTICAL DISTRICTS, LOCAL GOVERNMENT AREAS AND URBAN CENTRES, QUEENSLAND, 1976 TO 1981

1. STATISTICAL DIVISIONS

Since the 1976 Census, the Statistical Divisions have changed only by the removal of Noosa Shire from Wide Bay—Burnett and its inclusion in Moreton.

1981 Statistical Divisions

Brisbane
Central West
Darling Downs
Far North
Fitzroy
Mackay
Moreton
North West
Northern
South West
Wide Bay—Burnett

2. STATISTICAL DISTRICTS

At the 1976 Census, six Statistical Districts were created by drawing boundaries around selected urban centres with a population of 25,000 or more to contain the anticipated development of the urban centre and associated smaller urban centres for a period of at least 20 years. For the 1981 Census an additional District (Sunshine Coast) was delimited.

<i>Statistical Districts</i>	<i>LGA Components</i>
Bundaberg	Bundaberg(C); Gooburru(S) (part); Woongarra(S) (part)
Cairns	Cairns(C); Mulgrave(S) (part)
Gold Coast	Gold Coast(C); Albert(S) (part); Tweed Shire NSW (part)
Mackay	Mackay(C); Pioneer(S) (part)
Rockhampton	Rockhampton(C); Fitzroy(S) (part)
Sunshine Coast	Landsborough(S) (part); Maroochy(S) (part); Noosa(S) (part)
Townsville	Townsville(C); Thuringowa(S) (part)

3. LOCAL GOVERNMENT AREAS

For the 1981 Census, data for the City of Brisbane are presented separately for each of its one hundred and seventy-six suburbs. These areas are not separately administered for local government purposes. For statistical purposes, some of these suburbs have been amalgamated with areas not declared by the Place Names Board as follows:

Anstead etc. includes Anstead and Moggill State Forest.
Brookfield etc. includes Brookfield and Mount Coot-tha Park.
Enoggera etc. includes Enoggera and Enoggera Military Camp.
The Gap etc. includes The Gap and Enoggera State Forest.

Twenty-eight Brisbane suburbs which were amalgamated to form Census LGA's in 1976 have now been treated as separate Census LGA's in 1981. These suburbs comprise Berrinba, Burbank, Chandler, Cribb Island, Doolandella, Drewvale, Ellen Grove, Ferny Grove, Heathwood, Hemmant, Karawatha, Larapinta, Lower Nudgee, Lytton, Middle Park, Nudgee Beach, Pallara, Parkinson, Pullenvale, Ransome, Riverhills, Stretton, Sumner, Upper Brookfield, Upper Kedron, Wakerley, Westlake and Willawong.

Between 1976 and 1981 three new Local Government Authorities were created. The northern parts of Albert and Beaudesert Shires were combined to form the new Shire (later designated a City) of Logan (Brisbane Statistical Division). Mornington Shire was created from Unincorporated Islands (North West Statistical Division) and Aurukun Shire was created from part of Cook Shire (Far North Statistical Division). The following table indicates major changes to Local Government Area boundaries where population adjustments were involved. Further information about Brisbane suburbs and other amendments to statistical division or local government boundaries may be obtained from The Australian Statistician or The Deputy Commonwealth Statistician (Queensland).

(b) Logan Shire was designated a City from 1 January 1981.

C City. S Shire.

Unincorporated Islands

Between 1976 and 1981 the following Unincorporated Islands in North-West Statistical Division were excised to form the Mornington Shire: The Wellesley Islands, Forsyth Islands and The South Wellesley Islands (exclusive of Sweers Island).

4. URBAN CENTRES

Urban Gold Coast extends into New South Wales; the tables in this bulletin only include that part which is situated within Queensland. The total population of urban Gold Coast in 1981 was 154,706 and in 1976 was 105,777. The non-urban locality of Mungindi also extends into New South Wales. The total population of Mungindi in 1981 was 804 and in 1976 was 691.

In 1981, the urban centre of Kelso was absorbed by Townsville, and the locality of Muirlea was absorbed by Brisbane.

The following 1981 urban centres were non-urban at the 1976 Census: Airlie Beach, Browns Plains, Burnett Heads, Burpengary, Cannonvale, Cardwell, Crows Nest, Glenella, Gracemere, Kawana Waters, Peregian Beach, Redland Bay, Tannum Sands, Victoria Point, Waterford and White Rock.

The following urban centres were defined as urban centres at the 1976 Census because they were holiday resorts that contained 250 or more dwellings of which at least 100 were occupied: Beachmere, Emu Park and Woorim. In 1981 these localities have 1,000 or more persons.

The following population clusters of less than 1,000 persons are defined as urban centres in 1981, because they are holiday resorts that contain 250 or more dwellings of which at least 100 are occupied: Amity Point, Burrum Heads, Point Lookout, Russell-Macleay Islands and Tin Can Bay. They were also defined as urban centres in 1976 on this basis.

The following localities were urban in 1976, but failed to meet urban criteria in 1981: Cherbourg, Inglewood, Pallarenda and Ravenshoe.

AUSTRALIAN BUREAU OF STATISTICS

Census of Population and Housing Australia

30 June 1981

Householder's Schedule

Dear Householder,

Tuesday, 30 June 1981, is Census Day.

The census is an important statistical collection, which not only counts the number of people throughout Australia, but also measures such things as internal migration, occupation and industry of those in the labour force, and housing conditions. The enclosed pamphlet gives you a more detailed description of the value of the data collected in the census and the uses to which they will be put.

The census is the only way of getting a complete picture of all persons in Australia at the one time.

The Australian Bureau of Statistics is required by law to take a complete census of Australia every five years. The Act under which the census is taken is called the *Census and Statistics Act 1905*. This Act makes it compulsory for you to provide the information requested.

For your protection the same Act guarantees that your answers will be treated in confidence. All staff engaged on the census are required by law to protect the confidentiality of information collected. It would be an offence for any information relating to an identifiable person or household to be released to any other Government Department or agency, or indeed to anyone outside the Statistics Bureau.

If you have difficulties filling out this form, please ask the Collector for help or telephone.....

Your co-operation in carefully completing the form will contribute greatly to the success of the census.

AUSTRALIAN STATISTICIAN

HOW TO FILL IN THE SCHEDULE

What is a Household?

Persons living and eating together as a domestic unit are a household. A person living alone is also a household. If there is more than one household in this dwelling, obtain extra Schedules from the Collector AND FILL IN A SEPARATE SCHEDULE FOR EACH HOUSEHOLD.

Who to Include

List in the top row all persons (including visitors) who spent the night of Tuesday, 30 June 1981, in this household or returned on Wednesday, 1 July 1981, without having been counted elsewhere. USE ONE COLUMN FOR EACH PERSON. If there are more than 8 persons in this household, obtain extra Forms from the Collector.

On pages 1-5 give details of all persons who spent the night of Tuesday, 30 June 1981, in this household.

Complete particulars of this dwelling on page 5.

When Answering Questions

Please use ink or ball point pen.

Read the questions and instructions carefully; give your answer and then go to the next question.

Most answers can be given simply by placing a tick in an appropriate box.

If you do not know the exact answer, give the best estimate you can.

Privacy

If any person in your household prefers, for privacy reasons, not to be recorded on this Schedule, please ask the Collector for a Personal Form and envelope. The completed Form should be sealed in the envelope and delivered unopened to the Collector.

Please ask for an envelope in which to seal your completed Schedule and/or Personal Form(s), if you wish the Collector not to see them.

Finally

After filling in the Schedule, please sign it and enter the required address on the front page in the space provided.

The Collector will return as soon as possible after Tuesday, 30 June 1981, for the Schedule.
